Semester and Year: _____ Student's Name: _____

Academic Advisor: _____

Student's Semester Report
(All Graduate Students)
Department of Biomedical Informatics
Columbia University

1. Please list any papers that you have written, submitted, or had published since your last report:

2. Any special academic or research problems that you wish to bring to the attention of the departmental training execs? If so, explain.

3. Are you working outside of the academic and research requirements of the biomedical informatics degree program? If so, please list these activities and the approximate weekly commitment in hours for each.

4. If you answered "yes" to #3, please indicate whether any DBMI or University resources are being used to support your outside activities (other than your standard email communication).

5. How would you summarize your plans for the coming semester:

6. What is your understanding of the source of your DBMI funding for the coming semester, if any:

7. Do you have any special needs with which the department or school could assist?

Please fill out this form and present it to your academic advisor at the time of your advising meeting each semester.
